

INDEX OF SUBJECTS

A

| | |
|---|------|
| Abnormal cell division. — . . . and tissue mutation (study of the dynamics of malignant growth) (<i>Levy</i>) (September) ----- | 647* |
| Adamantinoma. — . . . of the tibia (<i>Davidson</i>) (September) ----- | 703* |
| Adrenal glands. — Studies on the involution of the fetal cortex of the . . . (<i>Benner</i>) (November) ----- | 787 |
| Alcoholism. — Pancreatitis in acute and chronic . . . (<i>Clark</i>) (September) ----- | 689* |
| Alcoholism. — The experimental reproduction of Wernicke's hemorrhagic alcoholic encephalitis by B_1 avitaminosis without . . . (<i>Alexander</i>) (September) ----- | 668* |
| Alcoholism. — Wernicke's disease. Identity of lesions produced experimentally by B_1 avitaminosis in pigeons with hemorrhagic polioencephalitis occurring in chronic . . . in man (<i>Alexander</i>) (January) ----- | 61 |
| Allergic inflammation. — Acute . . . of the lungs (<i>Cannon, Walsh and Marshall</i>) (September) ----- | 682* |
| Allergic inflammation. — Studies on experimental . . . in the liver (<i>Hartley and Lushbaugh</i>) (September) ----- | 682* |
| Amebiasis cutis. — . . . Report of a case (<i>Freeman, Schreck and Brown</i>) (September) ----- | 704* |
| Amyloid. — Chemical isolation and fractionation of . . . (<i>Hass</i>) (September) ----- | 653* |
| Anaerobic non-hemolytic streptococci. — Transitory invasion of the blood stream during labor by . . . (<i>Mackenzie and Fitzgerald</i>) (September) ----- | 676* |
| Anaphylactic reaction. — Ascorbic acid (vitamin C) and the . . . in guinea pigs (<i>Soule and Gehring</i>) (September) ----- | 663* |
| Anisotropic crystalloids. — . . . in the human thyroid gland (<i>Richter</i>) (September) ----- | 654* |
| Anoxia. — Anatomical changes produced by short periods of . . . (anoxic shock). The effect of frequent repetitions and combination with insulin (<i>Tannenberg</i>) (September) ----- | 656* |
| Anoxic shock. — Anatomical changes produced by short periods of anoxia The effect of frequent repetitions and combination with insulin (<i>Tannenberg</i>) (September) ----- | 656* |
| Anterior pituitary extract. — Effects of ovariectomy and long continued administration of . . . of cattle on skeletal tissues of immature guinea pigs (<i>Silberberg and Silberberg</i>) (July) ----- | 491 |
| Anterior pituitary extract. — The effect of thyroidectomy and administration of . . . of cattle on the growth of cartilage and bone of immature guinea pigs (<i>Silberberg and Silberberg</i>) (July) ----- | 505 |
| Antiserum reaction. — A cutaneous and precipitation . . . in experimental (virus) poliomyelitis of monkeys (<i>Rosenow</i>) (September) ----- | 687* |
| Aorta. — Dissecting aneurysm of the . . . (<i>McCartney</i>) (September) --- | 695* |

* Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at Pittsburgh, Pennsylvania, March 21 and 22, 1940.

| | |
|---|------|
| Arthritis. — Cardiac lesions in chronic infectious (rheumatoid) . . . (<i>Bagenstoss and Rosenberg</i>) (September) ----- | 693* |
| Ascorbic acid. — . . . (vitamin C) and the anaphylactic reaction in guinea pigs (<i>Soule and Gehring</i>) (September) ----- | 663* |
| Auricles. — Infarction of the . . . of the heart (<i>Cushing, Wartman and Stanton</i>) (September) ----- | 692* |
| Autonomy. — The development of . . . in spontaneous tumors as in- dicated by transplantation experiments undertaken at different morphological stages (<i>Greene</i>) (September) ----- | 648* |
| B | |
| Bacillemia. — Studies on . . . in experimental tuberculosis (<i>Howe</i>) (September) ----- | 678* |
| B₁ avitaminosis. — The experimental reproduction of Wernicke's hemor- rhagic alcoholic encephalitis by . . . without alcoholism (<i>Alex- ander</i>) (September) ----- | 668* |
| B₁ avitaminosis. — The nervous system in . . . (<i>Zimmerman</i>) (Sep- tember) ----- | 668* |
| B₁ avitaminosis. — Wernicke's disease. Identity of lesions produced ex- perimentally by . . . in pigeons with hemorrhagic polioencephalitis occurring in chronic alcoholism in man (<i>Alexander</i>) (January) ----- | 61 |
| 3:4-Benzpyrene. — Studies in carcinogenesis. X. Production of tumors by . . . in rats fed diets containing different levels of vitamin A (<i>Howe, Elliott and Shear</i>) (May) ----- | 295 |
| 3:4-Benzpyrene. — Studies in carcinogenesis. XI. Development of skin tumors in mice painted with . . . and creosote oil fractions (<i>Cabot, Shear and Shear</i>) (May) ----- | 301 |
| Benzpyrene. — Visceral changes in the course of single subcutaneous in- jections of . . . in mice (<i>Leuchtenberger</i>) (September) ----- | 651* |
| Black pigment. — A study of the . . . found in the human lung (<i>Wood- ruff and Moerke</i>) (September) ----- | 652* |
| Bone. — Eosinophilic granuloma of With report of a case (<i>Lichtenstein and Jaffe</i>) (September) ----- | 595 |
| Bone. — Solitary granuloma of . . . simulating primary neoplasm (<i>Otani and Ehrlich</i>) (July) ----- | 479 |
| Bone. — The effect of thyroideectomy and administration of anterior pituitary extract of cattle on the growth of cartilage and . . . of immature guinea pigs (<i>Silberberg and Silberberg</i>) (July) ----- | 505 |
| Bone marrow. — Comparative experimental studies of 200 kilovolt and 1000 kilovolt roentgen rays. II. The biological effects on the . . . of the albino rat (<i>Lingley, Gall and Hilcken</i>) (November) ----- | 845 |
| Botryomycosis. — Experimental . . . (<i>Kimmelstiel and Easley</i>) (Jan- uary) ----- | 95 |
| Breast. — Intracystic papilloma of the . . . (<i>Saphir and Parker</i>) (March) ----- | 189 |
| Bronchial obstruction. — The significance of . . . in pulmonary tuber- culosis in children and its relation to epituberculosis (<i>Terplan</i>) (September) ----- | 679* |
| C | |
| Calcified nodular aortic stenosis. — Etiology of . . . (<i>Hall and Ichioka</i>) (November) ----- | 761 |

| | |
|---|------|
| Calcified nodular aortic valve. — Etiology of the . . . (<i>Hall and Ichioka</i>) (September) ----- | 692* |
| Cancer immunity. — Sunlight, skin cancer and . . . (<i>Appcrly</i>) (September) ----- | 650* |
| Carcinogenesis. — Studies in IX. Hydrocarbon-cholesterol pellets in strain D mice (<i>Shear and Ilfeld</i>) (May) ----- | 287 |
| Carcinogenesis. — Studies in X. Production of tumors by 3:4-benzpyrene in rats fed diets containing different levels of vitamin A (<i>Howe, Elliott and Shear</i>) (May) ----- | 295 |
| Carcinogenesis. — Studies in XI. Development of skin tumors in mice painted with 3:4-benzpyrene and cresote oil fractions (<i>Cabot, Shear and Shear</i>) (May) ----- | 301 |
| Carcinogenic hydrocarbons. — The response of the central nervous system to the application of II. Methylcholanthrene (<i>Peers</i>) (November) ----- | 799 |
| Carcinoma. — The cellular structure of . . . of the lung. A study of ninety-two cases (<i>Halpert and Pearson</i>) (September) ----- | 705* |
| Cardiac lesions. — . . . in chronic infectious (rheumatoid) arthritis (<i>Baggenstoss and Rosenberg</i>) (September) ----- | 693* |
| Cartilage. — The effect of thyroideectomy and administration of anterior pituitary extract of cattle on the growth of . . . and bone of immature guinea pigs (<i>Silberberg and Silberberg</i>) (July) ----- | 505 |
| Cellophane perinephritis. — The pathological anatomy of . . . (<i>Grac and Page</i>) (March) ----- | 211 |
| Central nervous system. — Transient spasm and the . . . (histological studies) (<i>Nedzel</i>) (September) ----- | 673* |
| Chemotactic behavior. — Comparison between polymorphonuclear leukocytes and monocytes in regard to their . . . (<i>Coman</i>) (September) ----- | 686* |
| Chorioallantois. — Isolation and cultivation of <i>Haemophilus ducreyi</i> on the . . . of chick embryos (<i>Anderson and Snow</i>) (May) ----- | 269 |
| Chronic nephritis. — . . . of opossums (<i>Didelphys Virginiana</i>) (<i>Ratcliffe</i>) (September) ----- | 702* |
| Collagen. — Studies of I. The production of . . . in vitro under variable experimental conditions (<i>Hass and McDonald</i>) (September) ----- | 525 |
| Collagen. — Studies of II. Methods and results of implantation of . . . -forming cultures in granulation tissue (<i>Hass</i>) (September) ----- | 549 |
| Congenital bicuspid aortic valves. — . . . (<i>Kolotsky</i>) (September) ----- | 706* |
| Congenital defects. — . . . in the diaphragm (<i>Liebow and Miller</i>) (November) ----- | 707 |
| Cresote. — Studies in carcinogenesis. XI. Development of skin tumors in mice painted with 3:4-benzpyrene and . . . oil fractions (<i>Cabot, Shear and Shear</i>) (May) ----- | 301 |

D

| | |
|--|------|
| Deep leg veins. — The incidence, etiology and fate of thrombosis of the . . . in 351 unselected autopsies (<i>Hunter</i>) (September) ----- | 696* |
| Dermatomyositis. — A study of five cases (<i>Kinney and Maher</i>) (September) ----- | 561 |

| | |
|--|------|
| Diaphragm. — Congenital defects in the . . . (<i>Liebow and Miller</i>) (November) - - - - - | 707 |
| Dissecting aneurysm. — . . . of the aorta (<i>McCartney</i>) (September) - - - - - | 695* |
| E | |
| Encephalomyelitis. — Primary . . . in goats associated with Listerella infection (<i>King</i>) (July) - - - - - | 467 |
| Encephalopathic agent. — Some properties of the . . . in primate bone marrow (the Gordon agent) (<i>King</i>) (September) - - - - - | 688* |
| Endocrine glands. — The relationship of certain of the . . . to changes in the fat content of the liver (<i>Corwin</i>) (September) - - - - - | 675* |
| Endothelial cells. — A transmissible malignant neoplasm of mice originating in reticular or . . . (<i>Barnes and Furth</i>) (July) - - - - - | 457 |
| Eosinophilic granuloma. — . . . of bone. With report of a case (<i>Lichtenstein and Jaffe</i>) (September) - - - - - | 595 |
| Epiphysis. — Comparative experimental studies of 200 kilovolt and 1000 kilovolt roentgen rays. I. The biological effects on the . . . of the albino rat (<i>Gall, Lingley and Hilcken</i>) (September) - - - - - | 605 |
| Epituberculosis. — The significance of bronchial obstruction in pulmonary tuberculosis in children and its relation to . . . (<i>Terplan</i>) (September) - - - - - | 679* |
| Experimental poliomyelitis. — Cerebrospinal pathology of . . . in the eastern cotton rat (<i>Sigmodon hispidus hispidus</i>) and in the white mouse (<i>Mus musculus</i>) (<i>Lillie and Armstrong</i>) (September) - - - - - | 672* |
| Experimental pyelonephritis. — The pathology of acute and healed . . . (<i>Mallory, Crane and Edwards</i>) (September) - - - - - | 700* |
| Experimental (virus) poliomyelitis. — A cutaneous and precipitation antiserum reaction in . . . of monkeys (<i>Rosenow</i>) (September) - - - - - | 687* |
| Ewing's sarcoma. — Metastatic neuroblastoma in bone presenting the Ewing syndrome, with a discussion of ". . ." (<i>Willis</i>) (May) - - - - - | 317 |
| Ewing syndrome. — Metastatic neuroblastoma in bone presenting the . . ., with a discussion of "Ewing's sarcoma" (<i>Willis</i>) (May) - - - - - | 317 |
| F | |
| Fat. — The relationship of certain of the endocrine glands to changes in the . . . content of the liver (<i>Corwin</i>) (September) - - - - - | 675* |
| Fetal cortex. — Studies on the involution of the . . . of the adrenal glands (<i>Benner</i>) (November) - - - - - | 787 |
| Fetal endocarditis. — The concept of . . . (<i>Gross</i>) (September) - - - - - | 705* |
| Fibroblast. — Schwann cell versus . . . as the origin of the specific nerve sheath tumor. Observations upon normal nerve sheaths and neurilemmomas in vitro (<i>Murray and Stout</i>) (January) - - - - - | 41 |
| Food selenosis. — Histogenesis of hepatic cirrhosis in chronic . . . (<i>Lillie and Smith</i>) (March) - - - - - | 223 |
| Fox encephalitis. — The cytology of . . . and the effects of centrifugation on the intranuclear inclusions (<i>Lucas</i>) (November) - - - - - | 739 |
| G | |
| Gasserian ganglion cells. — Morphological alterations in the . . . and their association with senescence in man (<i>Truex</i>) (May) - - - - - | 255 |
| Ghon complex. — The presence of viable tubercle bacilli in lesions of the . . . of children (<i>Feldman and Helmholz</i>) (September) - - - - - | 679* |

| | |
|--|------|
| Gliomas. — . . . of mixed type (<i>Edwards and Russell</i>) (September) - - | 646* |
| Globi. — Cytological studies on . . . in leprosy (<i>Cowdry</i>) (March) - - | 103 |
| Gordon agent. — Some properties of the encephalopathic agent in primate bone marrow (the . . .) (<i>King</i>) (September) - - - - | 688* |
| Granuloma. — Solitary . . . of bone. Simulating primary neoplasm (<i>Otani and Ehrlich</i>) (July) - - - - | 479 |

H

| | |
|---|------|
| Haemophilus ducreyi. — Isolation and cultivation of . . . on the chorio-allantois of chick embryos (<i>Anderson and Snow</i>) (May) - - - - | 269 |
| Heart. — Infarction of the auricles of the . . . (<i>Cushing, Wartman and Stanton</i>) (September) - - - - | 692* |
| Hemolytic streptococci. — Histopathological changes produced in rabbits by experimental inoculation with . . ., certain of their component factors and saponin. A preliminary report (<i>Smith, Morgan and Mudd</i>) (January) - - - - | 87 |
| Hemorrhagic polioencephalitis. — Wernicke's disease. Identity of lesions produced experimentally by B_1 avitaminosis in pigeons with . . . occurring in chronic alcoholism in man (<i>Alexander</i>) (January) - - - | 61 |
| Hepatic cirrhosis. — Histogenesis of . . . in chronic food selenosis (<i>Lillie and Smith</i>) (March) - - - - | 223 |
| Herpes simplex virus. — Pathogenesis of . . . infection in chick embryos (<i>Anderson</i>) (March) - - - - | 137 |
| Hydrocarbon-cholesterol pellets. — Studies in carcinogenesis. IX. . . . in strain D mice (<i>Shear and Ilfeld</i>) (May) - - - - | 287 |
| Hypertension. — Changes in the juxtaglomerular neuromyoarterial apparatus (<i>Goormaghtigh</i>) and their relation to renal ischemia and . . . (<i>Graef</i>) (September) - - - - | 699* |
| Hypervitaminosis D. — Histopathological study of a fatal case of . . . (<i>Lippincott</i>) (September) - - - - | 665* |
| Hypotensive arteriosclerosis. — Experimental . . . in rats (<i>Hueper</i>) (September) - - - - | 695* |

I

| | |
|--|------|
| Infarction. — . . . of the auricles of the heart (<i>Cushing, Wartman and Stanton</i>) (September) - - - - | 692* |
| Infectious angiitis. — Experimental . . . (<i>Winteritz and LeCompte</i>) (January) - - - - | 1 |
| Infectious feline agranulocytosis. — . . . (<i>Lawrence, Syverton, Shaw and Smith</i>) (May) - - - - | 333 |
| Infectious mononucleosis. — The histological lesion in lymph nodes in . . . (<i>Gall and Stout</i>) (July) - - - - | 433 |
| Inflammation. — Mechanism of leukocytosis with . . .: the nature of the leukocytosis-promoting factor (<i>Menkin</i>) (September) - - - - | 685* |
| Inflammation. — Studies on . . . XVIII. On the mechanism of leukocytosis with . . . (<i>Menkin</i>) (January) - - - - | 13 |
| Insulin. — Anatomical changes produced by short periods of anoxia (anoxic shock). The effect of frequent repetitions and combination with . . . (<i>Tannenborg</i>) (September) - - - - | 656* |
| Intracystic papilloma. — . . . of the breast (<i>Saphir and Parker</i>) (March) | 189 |

| | |
|--|------|
| Intrahepatic fat necrosis. — . . . caused by pancreatic reflux (<i>Schiller</i>) (September) ----- | 689* |
| Intranuclear inclusions. — The cytology of fox encephalitis and the effects of centrifugation on the . . . (<i>Lucas</i>) (November) ----- | 739 |
| Irradiation sickness. — Pathogenesis of . . . : a new method for inducing shock (<i>Moon, Kornblum and Morgan</i>) (September) ----- | 657* |
| J | |
| Juxtaglomerular apparatus. — Histological changes in the ischemic kidney. With special reference to the . . . (<i>Goormaghtigh</i>) (July) ----- | 409 |
| Juxtaglomerular neuromyoarterial apparatus. — Changes in the . . . (<i>Goormaghtigh</i>) and their relation to renal ischemia and hypertension (<i>Graef</i>) (September) ----- | 699* |
| K | |
| Kidney. — Histological changes in the ischemic With special reference to the juxtaglomerular apparatus (<i>Goormaghtigh</i>) (July) ----- | 409 |
| L | |
| Labor. — Transitory invasion of the blood stream during . . . by anaerobic non-hemolytic streptococci (<i>Mackenzie and Fitzgerald</i>) (September) ----- | 676* |
| Leprosy. — Cytological studies on globi in . . . (<i>Cowdry</i>) (March) ----- | 103 |
| Leukocytosis. — Mechanism of . . . with inflammation: the nature of the . . . -promoting factor (<i>Menkin</i>) (September) ----- | 685* |
| Leukocytosis. — Studies on inflammation. XVIII. On the mechanism of . . . with inflammation (<i>Menkin</i>) (January) ----- | 13 |
| Leukocytosis-promoting factor. — Mechanism of leukocytosis with in- flammation: the nature of the . . . (<i>Menkin</i>) (September) ----- | 685* |
| Libman-Sacks disease. — The cardiac lesions in With a consider- ation of its relationship to acute diffuse lupus erythematosus (<i>Gross</i>) (July) ----- | 375 |
| Listerella infection. — Primary encephalomyelitis in goats associated with . . . (<i>King</i>) (July) ----- | 467 |
| Liver. — Studies on experimental allergic inflammation in the . . . (<i>Hartley and Lushbaugh</i>) (September) ----- | 682* |
| Liver. — The effect of vitamin D on the . . . lobule (<i>Heymann and Wartman</i>) (September) ----- | 666* |
| Liver. — The relationship of certain of the endocrine glands to changes in the fat content of the . . . (<i>Corwin</i>) (September) ----- | 675* |
| Lung. — A study of the black pigment found in the human . . . (<i>Wood- ruff and Moerke</i>) (September) ----- | 652* |
| Lung. — Late pathological effect of high voltage X-rays upon the human . . . (<i>Bauer and Schraer</i>) (September) ----- | 657* |
| Lung. — The cellular structure of carcinoma of the A study of ninety-two cases (<i>Halpert and Pearson</i>) (September) ----- | 705* |
| Lungs. — Acute allergic inflammation of the . . . (<i>Cannon, Walsh and Marshall</i>) (September) ----- | 682* |
| Lupus erythematosus. — The cardiac lesions in Libman-Sacks disease. With a consideration of its relationship to acute diffuse . . . (<i>Gross</i>) (July) ----- | 375 |

| | |
|---|-----|
| Lymph nodes. — The histological lesion in . . . in infectious mononucleosis (<i>Gall and Stout</i>) (July) - - - - - | 433 |
| Lymphogranuloma venereum. — The transmission of . . . to the guinea pig (<i>Grace and Suskind</i>) (March) - - - - - | 169 |

M

| | |
|---|------|
| Malignant neoplasm. — A transmissible . . . of mice originating in reticular or endothelial cells (<i>Barnes and Furth</i>) (July) - - - - - | 457 |
| Maternal tumors. — The pathology and pathogenesis of . . . occurring spontaneously in the Albany strain of rats (<i>Wright, Klinck and Wolfe</i>) (November) - - - - - | 817 |
| Melanoma. — Malignant . . . (<i>Warren and Gatzs</i>) (September) - - - - - | 707* |
| Meningococcus endocarditis. — . . . and myocarditis. Report of a case with unusual lesions in the arterial tree (<i>Whillans</i>) (May) - - - - - | 365 |
| Methylcholanthrene. — The response of the central nervous system to the application of carcinogenic hydrocarbons. II. . . . (<i>Peers</i>) (November) - - - - - | 799 |
| Microglia. — A silver carbonate staining method for oligodendrocytes and . . . for routine use (<i>McCarter</i>) (March) - - - - - | 233 |
| Mixed mesodermal tumors. — . . . of the body of the uterus (<i>Liebow and Tennant</i>) (September) - - - - - | 645* |
| Mongolism. — Growth disorder of the skull in . . . (<i>Benda</i>) (January) | 71 |
| Monocytes. — Comparison between polymorphonuclear leukocytes and . . . in regard to their chemotactic behavior (<i>Coman</i>) (September) | 686* |
| Myeloma. — Multiple . . . with metastases to the testicles and the pancreas (<i>Kirshbaum</i>) (September) - - - - - | 706* |
| Myocardial lesions. — . . . due to combined salt and vitamin deficiencies (<i>Thomas, Mylon and Winternitz</i>) (September) - - - - - | 667* |
| Myocarditis. — Meningococcus endocarditis and . . . Report of a case with unusual lesions in the arterial tree (<i>Whillans</i>) (May) - - - - - | 365 |

N

| | |
|---|------|
| Nerve sheath tumor. — Schwann cell versus fibroblast as the origin of the specific . . . Observations upon normal nerve sheaths and neurilemomas in vitro (<i>Murray and Stout</i>) (January) - - - - - | 41 |
| Nervous system. — The . . . in B ₁ avitaminosis (<i>Zimmerman</i>) (September) - - - - - | 668* |
| Nervous system. — Vitamin A deficiency and lesions of the . . . (<i>Wolbach, Bessey and Swank</i>) (September) - - - - - | 667* |
| Neurilemomas. — Schwann cell versus fibroblast as the origin of the specific nerve sheath tumor. Observations upon normal nerve sheaths and . . . in vitro (<i>Murray and Stout</i>) (January) - - - - - | 41 |
| Neuroblastoma. — Metastatic . . . in bone presenting the Ewing syndrome, with a discussion of "Ewing's sarcoma" (<i>Willis</i>) (May) - - - - - | 317 |
| Notochordal tissue. — Teratoma of the ovary, with a segment of vertebral column and remnants of . . . Report of a case (<i>Riopelle</i>) (September) - - - - - | 625 |

O

| | |
|---|------|
| Oligodendrocytes. — A silver carbonate staining method for . . . and microglia for routine use (<i>McCarter</i>) (March) - - - - - | 233 |
| Ovarian tumors. — Solid . . . (<i>Dockerty and MacCarty</i>) (September) - - - - - | 641* |

| | |
|--|------|
| Ovariectomy. — Effects of . . . and long continued administration of anterior pituitary extract of cattle on skeletal tissues of immature guinea pigs (<i>Silberberg and Silberberg</i>) (July) - - - - - | 491 |
| Ovary. — Teratoma of the . . . , with a segment of vertebral column and remnants of notochordal tissue. Report of a case (<i>Riopelle</i>) (September) - - - - - | 625 |
| P | |
| Pancreas. — Multiple myeloma with metastases to the testicles and the . . . (<i>Kirshbaum</i>) (September) - - - - - | 706* |
| Pancreatic reflux. — Intrahepatic fat necrosis caused by . . . (<i>Schiller</i>) (September) - - - - - | 689* |
| Pancreatitis. — . . . in acute and chronic alcoholism (<i>Clark</i>) (September) - - - - - | 689* |
| Pappenheimer's 84 diet. — Rickets: . . . and its effect upon the gastrointestinal mucosa of the rat (<i>Popoff</i>) (September) - - - - - | 665* |
| Parathyroids. — Physiological hypertrophy of the . . . , its cause and its relation to rickets (<i>Ham, Littner, Drake, Robertson and Tisdall</i>) (May) - - - - - | 277 |
| Perineural fibroblastoma. — Origin of . . . (<i>Tarlov</i>) (January) - - - - - | 33 |
| Polymorphonuclear leukocytes. — Comparison between . . . and monocytes in regard to their chemotactic behavior (<i>Coman</i>) (September) - - - - - | 686* |
| Postmortem febrile conditions. — The bacteriology of . . . (<i>Lacy and Cohen</i>) (September) - - - - - | 676* |
| Primate bone marrow. — Some properties of the encephalopathic agent in . . . (the Gordon agent) (<i>King</i>) (September) - - - - - | 688* |
| Pulmonary tumors. — Histogenesis of induced . . . in strain A mice (<i>Grady and Stewart</i>) (July) - - - - - | 417 |
| Pulmonary valve. — Tuberculosis involving the . . . (<i>Gilmore</i>) (March) | 229 |
| R | |
| Radium menopause. — Endometrial response to stilbestrol in . . . (<i>Grauer, Beall and Wilson</i>) (September) - - - - - | 674* |
| Rattlesnake (Crotalus) venom. — Pathological changes produced by the subcutaneous injection of . . . into Macaca mulatta monkeys (<i>Fidler, Glasgow and Carmichael</i>) (May) - - - - - | 355 |
| Renal carcinoma. — Familial occurrence of . . . in rhesus monkeys (<i>Macaca mulatta</i>) (<i>Ratcliffe</i>) (September) - - - - - | 619 |
| Renal ischemia. — Changes in the juxtaglomerular neuromyoarterial apparatus (<i>Goormaghtigh</i>) and their relation to . . . and hypertension (<i>Graef</i>) (September) - - - - - | 699* |
| Reticular. — A transmissible malignant neoplasm of mice originating in . . . or endothelial cells (<i>Barnes and Furth</i>) (July) - - - - - | 457 |
| Reticulum cell sarcoma. — Primary . . . of the spine. Report of a case with autopsy (<i>Edwards</i>) (November) - - - - - | 835 |
| Reticulum cell tumors. — Splenic . . . in mice (<i>Furth and Krumdieck</i>) (July) - - - - - | 449 |
| Rheumatic fever. — The subcutaneous nodules of rheumatoid arthritis and A pathological study (<i>Bennett, Zeller and Bauer</i>) (September) - - - - - | 690* |

| | |
|--|------|
| Rheumatoid arthritis. — The subcutaneous nodules . . . and rheumatic fever. A pathological study (<i>Bennett, Zeller and Bauer</i>) (September) ----- | 690* |
| Rhinosporidiosis. — . . . (<i>Davidson</i>) (September) ----- | 704* |
| Riboflavin. — An experimental study of the neuropathological aspects of . . . and vitamin B ₆ deficiencies in dogs (<i>Lightner and Forbus</i>) (September) ----- | 670* |
| Rickets. — . . . Pappenheimer's 84 diet and its effect upon the gastrointestinal mucosa of the rat (<i>Popoff</i>) (September) ----- | 665* |
| Rickets. — Physiological hypertrophy of the parathyroids, its cause and its relation to . . . (<i>Ham, Littner, Drake, Robertson and Tisdall</i>) (May) ----- | 277 |
| Roentgen rays. — Comparative experimental studies of 200 kilovolt and 1000 kilovolt . . . I. The biological effects on the epiphysis of the albino rat (<i>Gall, Lingley and Hilcken</i>) (September) ----- | 605 |
| Roentgen rays. — Comparative experimental studies of 200 kilovolt and 1000 kilovolt roentgen rays. II. The biological effects on the bone marrow of the albino rat (<i>Lingley, Gall and Hilcken</i>) (November) ----- | 845 |
| S | |
| Salt. — Myocardial lesions due to combined . . . and vitamin deficiencies (<i>Thomas, Mylon and Winternitz</i>) (September) ----- | 667* |
| Saponin. — Histopathological changes produced in rabbits by experimental inoculation with hemolytic streptococci, certain of their component factors and . . . A preliminary report (<i>Smith, Morgan and Mudd</i>) (January) ----- | 87 |
| Schwann cell. — . . . versus fibroblast as the origin of the specific nerve sheath tumor. Observations upon normal nerve sheaths and neurilemmomas in vitro (<i>Murray and Stout</i>) (January) ----- | 41 |
| Senescence. — Morphological alterations in the gasserian ganglion cells and their association with . . . in man (<i>Truex</i>) (May) ----- | 255 |
| Shock. — Pathogenesis of irradiation sickness: a new method for inducing . . . (<i>Moon, Kornblum and Morgan</i>) (September) ----- | 657* |
| Silver carbonate staining method. — A . . . for oligodendrocytes and microglia for routine use (<i>McCarter</i>) (March) ----- | 233 |
| Skeletal tissues. — Effects of ovariectomy and long continued administration of anterior pituitary extract of cattle on . . . of immature guinea pigs (<i>Silberberg and Silberberg</i>) (July) ----- | 491 |
